MPRRAC/ Department Roles

- MPRRAC is a legislatively appointed body that functions collaboratively with HCPF; they are not HCPF staff.
- Rate Review staff is tasked with synthesizing actuarial analyses into digestible reports and works with other HCPF staff to develop recommendations for rate or policy changes, which are then agreed upon by the MPRRAC.
- These recommendations *may* result in future budget actions by HCPF but rate changes must be approved and appropriated for by the Legislature.
- Review of services including analysis and recommendations does not guarantee rate changes, whether increases or decreases, or changes to reimbursement policy.

COLORADO

Department of Health Care
Policy & Financing

Out of Scope for the MPRRAC

The MPRRAC does NOT submit budget requests

- While budget requests are submitted by staff of the Department, the process of budget request submission is independent of the Rate Review process.

The MPRRAC does NOT have the authority to change rates without legislative approval and appropriation

Rules of Governance

- Self-governance
- Maintain a respectful, safe environment for all
- One person speaks at a time
- Stay on mute unless engaging
- Tough on problems, easy on people
- Use the past only to describe a better future
- Come prepared - review materials in advance, gather & share input from your community, stakeholders, colleagues, etc.

Discussion:

- Terms for Chair and Vice Chair

Excluded Code Handling Strategy

- Codes that are manually priced or those that CO Medicaid ceased to use (i.e., they are not in the newer fee schedule) are completely excluded.
- Codes without utilization data but with a valid benchmark rate are analysed through a rate-only comparison; they are treated the same as codes with benchmark ratios regarding recommendations.
- Codes without benchmark rates:
 - For each service category discussed here, we will present the codes without benchmark rates and provide relevant fiscal impact data if the rates are increased by 1%.

Qualified Residential Treatment Program (QRTP) - RECAP

Service description:

- QRTPs are facilities that provide residential trauma-informed treatment designed to address the needs, including clinical needs, of children with serious emotional or behavioral disorders or disturbances. When appropriate, QRTP treatment facilitates the participation of family members, including siblings, in the child's treatment program and documents outreach to family members, including siblings. QRTP is a new service category as of 2021. Due to federal rule changes restricting the ability to reimburse RCCFs, many RCCFs transitioned into QRTPs.

Access to Care Summary RECAP:

- The panel size is decreasing in urban areas because there was an increase in providers while utilization remained consistent.

Psychiatric Residential Treatment Programs (PRTF) - RECAP

Service description:

- PRTFs provide comprehensive mental health treatment to children and adolescents (youth) who, due to mental illness, substance abuse, or severe emotional disturbance, need treatment that can most effectively be provided in a residential treatment facility. PRTF services are provided under the direction of a physician.

Reminders:

- For the rate comparison analysis, we excluded all out-of-state claims because the rates are on a case-by-case basis and are set in contract with the various out-of-state providers.
- We have a 40% out-of-state placement for PRTF.
- Challenge: the benchmark ratio for the in-state rate is not low (i.e., 98.3%), but we have 40% out-of-state placement due to a lack of in-state providers for hard-to-serve populations.

Physician Services - Sleep Studies - RECAP

Service description:

- Sleep studies and polysomnography refer to the continuous and simultaneous monitoring and recording of various physiological and pathophysiological parameters of sleep with six or more hours of recording with physician review, interpretation and report. The studies are performed to diagnose a variety of sleep disorders and to evaluate a patient's response to therapies such as continuous positive airway pressure (CPAP). Polysomnography is distinguished from sleep studies by the inclusion of sleep staging. Sleep studies and polysomnography are typically provided by hospitals, clinics, independent laboratories, or Independent Diagnostic Testing Facilities (IDTF). IDTFs enroll with Colorado Medicaid as Provider Type 16 (Clinic) or Provider Type 25 (Non-physician practitioner - group). Sleep studies and polysomnography fall under Physician Services and are available, as medically necessary, to all Medicaid members who receive full State Plan benefits.

Home Health Services - RECAP

Service description:

- Home health services consist of skilled nursing, certified nurse aid (CNA) services, physical (PT) and occupational therapy (OT) services and speech/language pathology (SLP) services. Home health services are a mandatory State Plan benefit offered to Colorado Medicaid members who need intermittent skilled care. Providers that render home health services must be employed by a class A licensed home health agency. Home health services are provided in home and community settings.

Access to Care Summary RECAP:

- For panel size, there is an increasing trend in urban areas due to an increase in utilizers while the number of providers has remained stable.

- Include the duals data (excluded it in 2021 HCBS waiver review)
- CDASS (Consumer Directed Attendant Support Services) has a rate-only comparison (not attached to the utilization data)
- The budget neutrality factor should be considered in the recommendation stage

HCBS Direct Care Base Salary Increase for SFY 2024-2025

- The JBC approved an increase of \$1 for Denver rates and \$1.25 for non-Denver rates, effective on July 1, 2024.
- How to handle the rate adjustment dilemma if a HCBS direct care service rate is recommended to be decreased but the JBC just increased it?
 - Keep the decrease
 - Keep the July 1, 2024 rate - no change
- Need MPRRAC approval: Keep the July 1, 2024 rate if it's originally recommended to be decreased
- Rational: we have a large shortage of direct care workforce nationally
